DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of claims 12, 14, 19, 21-24 in Paper No. 11 is acknowledged. The traversal is on the ground(s) that the Applicant believes that the Examiner has to examine the patentability of all species by examining species III. This is not found persuasive because each claim is evaluated on its own merits, not in piecemeal fashion. Species III is a specific combination of elements and the patentability of the individual elements is not considered in examining the claim; the patentability of the combination is considered. Having fewer limitations and broader scope does not make the species a genus. Further, arguments about search burden are not commensurate to the scope of the restriction. The restriction requires that upon traversal, the applicant to submit evidence or identify such evidence now of record to show the species are obvious variants.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1, 2, 5, 6, 11, 13, 16-18, 20 and 25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 11.

Allowable Subject Matter

Claims 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14, 19 and 21-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3713

The following is an examiner's statement of reasons for allowance:

As per the specification and the interview with the Applicant, the Examiner interprets the following essential claim limitations to be defined as follows:

payout insured- Lottery ticket that is insured for full payment of winnings no matter the winning size

tax insured- Lottery ticket that is insured for the winning amount plus an additional amount equal to at least a portion of the taxes

non-payout insured- Lottery ticket that is not payout insured. Winner will receive amount less than full winnings or be subject to annuities

non-tax insured- Lottery ticket that is not tax insured. Winner will receive amount less than needed to pay off any taxes on winnings.

tax and payout insured- Ticket that is insured both for payout and taxes on winnings. Winner will receive full amount of winnings no matter what size and additionally an amount to cover at least a portion of the taxes.

The claims are allowable based on the interpretation of their language as explicitly defined above. The prior art of record does not disclose the combination of both payout and tax insurance options on a lottery ticket, nor is such a feature obviated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

This application is in condition for allowance except for the following formal matters:

Claims 14, 19, and 21- 24 are objected to for minor informalities under 37 C.F.R §1.175.

The claims are unclear via parent claims 13 and 16, as it is stated that the award amount is different for tickets that are non-insured. It is not clear what type of insurance is meant. By context, the Examiner best understands it to mean that which has been previously discussed in the claim. However, the claim language needs to be amended to clarify and make clear the exact process.

To clarify, the Applicant needs to insert a description of the type of insurance to which the claim is referring. As presently claimed, the word "non" is used to describe the absence of insurance. There is no identifier to clarify the type of insurance to which the "non" refers. The ticket should be defined as either non-payout insured or non-tax insured. The usage of non-insured is unclear as both types of insurance are present and it is unclear to which insurance type the phrase is referring.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
